

2NT Home work ideas for week beginning 30th March 2020

Hello pupils and Parents! We hope that everyone is ok and you are having a nice time with your family.

It would still be great if you could start each day with some physical exercise. We need to do as much as we can to keep feeling well and happy. We recommend YouTube to dance with Oti Mabuse and Marius. You'll recognise some of your favourite songs on there!

Listen to a story on Audible- it's free at the moment and there's lots of great stories on there.	Create a model out of junk materials- ask your parents to help you to find items you can use.	Find the live tour of Chester Zoo on YouTube- how many animals can you spot? Can you write them down?
Help your family do some jobs- Can you write a list of jobs to do and tick them off as you finish them?	Play a game with your family. You could practice your throwing and catching skills or your balance.	Follow the instructions below to clean up after dinner and wash the pots once a day.
Baking - Make the recipe below with someone in your house. Remember to this as independently as possible.	Try the Hidden objects counting back subtraction game below with objects from around the house.	

Neil and Bianca

Maths Mastery Home Learning Challenge

Adult Guidance

What Are We Learning?

We are learning to subtract by counting back.

How to Set up the Challenge

- Place up to ten small objects on a tray.
- Once counted, the tray can be covered by a towel.
- When objects are removed from under the towel, place them next to the tray so that they can see how many you have taken away.

How to Get Your Child Thinking

- How many things were on the tray?
- How many did I take away?
- Can you put the starting number in your head?
- Can you count back to find how many are left?

Hidden Objects Counting Back Subtraction

- Your partner will place up to 10 objects on the tray.
- Count the objects.
- Your partner can cover the tray. They can then carefully take some away and put them by the side of the tray.
- How many did they take away?
- Count back to find out how many are still on the tray.

Visual Schedule: Meal Cleanup

Steps to Washing Dishes

Rinse dishes

Put in dishrack

Clear table

Put soap on wet sponge

Dry dishes

Throw food scraps away

Scrub dishes

Put dishes away

Put dishes in sink

Rinse dishes

Wipe table clean

  
Small Chocolate Cakes

1
