

Physical Development

Fine Motor skills

We develop our pupils' fine motor skills throughout the day through play and self-help activities. Some pupils have additional support from our Occupational Therapist.

The programs we use include: Disco Dough (manipulating play dough to music), Write Dance (drawing to music and story), Primary Movement (coordinated repetitive movement to music).

We also encourage mark making using a variety of different medium, e.g. shaving foam, cornflour and sand.

Gross Motor Skills

Our gross motor skills program includes: swimming, horse riding, soft play sessions, Sensory Integration and Rebound Therapy for targeted children, cycling, outside play, dance, ball skills, games and apparatus.

Children have the opportunity to attend a variety of clubs including: sports club, dance club and sensory club during lunch time as curriculum enrichment activities.

Horseriding
