

1KGu Suggested work for week starting 15th June

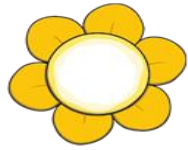

*What's happening here?

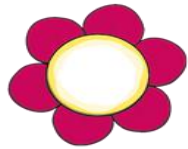

*Do the two smaller mushrooms know the larger one?

*Have they done this before? How do you know?

*What is the larger mushroom reading? What kind of thing might you expect to find inside this book?

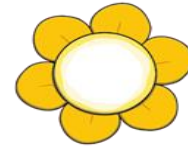

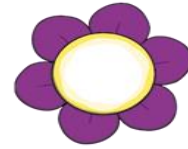

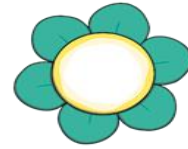

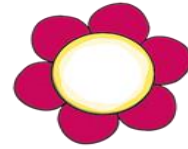

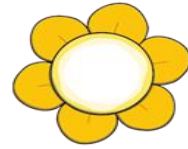

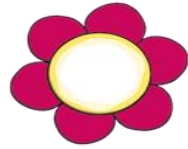

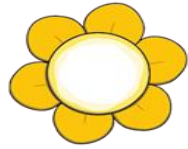

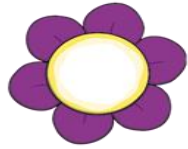

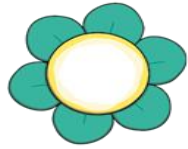

*'Enoki' is the type of mushroom (it is the Japanese name for it, as it's highly popular in Japan). Are the smaller mushrooms of the same species?

*What do you think might be in the background?
