| ESPA | 1 |

We continue the trend of pupils choosing to leave earlier than year 14. This has to be right for the pupils and our package of CEIAG support from Margaret Jackson supports pupils through the decision-making process through to places being assigned and visits prior to starting. The careers provision through KS3 has been enhanced by working alongside Wendy Gosling and a programme of external speakers and work experience visits broadens pupils horizons. We are starting the discussions earlier with parents during Annual Review meetings to prepare them that it is a possibility if they so wish. Our Phase Lead and the team continue to work hard in supporting pupils choices and providing them with the best life opportunities.
